Herd Established 1937

To Fellow Breeders and Cattlemen:

This year we have been breeding Shorthorn and Polled Shorthorns for 40 years. Looking back over four decades with the breed, many highlights come to mind, which overshadow the numerous liabilities that come with the production of registered cattle.

Overall the breed has been good to us. As the song goes "I've seen some good times. . . and I've seen some sad times!" But, my association with fellow breeders is a foremost point in my mind during these 40 years. Then, of course, the cattle come next. A real joy is to see a good crop of calves from the new bull and following them from calves to producing animals on our own farm and the farms of fellow breeders. The growing of feedstuffs in a year of abundance also fills my mind, because without this - our good calves had little chance. The purchase of a top animal from a fellow breeder for the herd and select a new herd bull which you think will work in your breeding program.

We will not talk about the liabilities, all of us have experienced virtually the same, because a man with a cow herd has mostly the same problems. However, the good most surely outweighs the not so good.

For the breeder (or the would be breeder) of Shorthorn and Polled Shorthorn there is much satisfaction in the production of registered cattle. I am sure this is true in our case or I would not be in it today.

As our cow herd has grown older, we have replaced them with the production of many good heifers, which has cut our availability of cattle for our sale. In the meantime, we have invited both our **Fellow Breeders** and members of the **Southeastern Shorthorn Breeders Association** to supplement our own offering. I am delighted at the response from numerous breeders that have made it possible to have our sale this year.

I hope we will have the largest attendance ever for this sale. We need you to come whether you buy or just come to enjoy the fellowship of breeders and see some good breeding stock. But, do come!

Finally, we appreciate all who have bought cattle and the participation of every consignor to our sale. We extend you and them a hearty welcome. I hope to see you at the sale.

Sincerely yours,

T. Elias McGee

COMMENTS BY SALE MANAGER

WHERE DO WE GO FROM HERE?

No doubt this is a question that can be asked by all of us as we meet with the many problems in the industry and the changes that come to us almost daily in the task of breeding Shorthorn and Polled Shorthorn.

During times like those existing in the industry today, principally associated with cost of production in relation to sales, it is easy to give up and leave the job to someone else. However, Shorthorn breeders have more endurance in adverse times than perhaps men with other breeds. **WHEN THE GOING GETS TOUGH. . . THE TOUGH GET GOING!** That's where those with **SHORTHORN** fit in. That's where **SHORTHORN** fit in.

Needless to point out it would have been easy to not have this sale in view of the numbers needed to supplement the McGee offering. But, Fellow Breeders and members of the Southeastern Shorthorn and Polled Shorthorn Association have consigned a good offering.

MARKETING MUST GO ON IN ALL KINDS OF ECONOMIC CONDITIONS, cash flow is more important now than ever before. While cattle prices are not as strong as we need them, our cattle can still be turned into **CASH** with little effort. This is an important part to consider about cattle production.

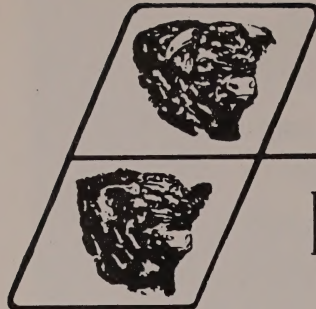

FURTHER, PROMOTION MUST GO ON IN ALL KINDS OF TIMES! Simply because a breed without some sort of good promotion fails to advance and keep pace with competition. This sale is **PROMOTION** for your breed. I urge you who take time to read this to make plans and attend this event. It could be beneficial to you and definitely it will show your stand in behalf of the breed. Perhaps you will see a "fellow breeder" you have not seen in awhile. There may be some good animals you would like to have in your herd. . . and they might be bought at prices you would like to pay. But, if you are not there. . . that's another story.

In the cataloging of this consignment, I feel this may be one of the best offerings during the six years this sale has been held. Most certainly you will find some of the most modern type Shorthorn and Polled Shorthorn you will find anywhere. The bloodlines are also among the best. You will find some foundation cows that are proven and many good young cattle to select from sired by noted bulls in the industry.

I look forward to seeing you at this event. Please call on me if I can be of service.

Sincerely yours,

W. Scott Wilson

Southeastern Shorthorn & Polled Shorthorn Association

**ROUTE 2
STARR, S. C. 29684**

To Members of the Association:

We are indeed fortunate to have the opportunity to be a part of the Sixth Annual Sale of T. Elias McGee. The joint interest and effort should be a real boost to our breed and to the activity of the association. Mr. McGee has led the way for the past several years, along with other Fellow Breeders in promotion for the breed in our area. Without the promotion of his sales, our breed would be without public exposure for the most part. I hope you will be a part of this event. I urge you as a member of the association to come to the sale.

If we expect to keep our breed before the public we must all work together. As chief officer of your organization I feel it is our obligation to do all we can to make this sale one of the best for the breed in our area. I am depending on you to at least support the sale with your presence and I look forward to seeing you there.

Sincerely yours,

Ned McGill, President

A recent Addition to the McGee herd bull battery is this powerful big, roomy roan bull. A bull with a lot of scale and size and with ancestry of the same kind. He is sired by the Canadian bred Thomas Leader 116 B, a powerful breeding son of the Butte Lee Leader 21st. He was sire of the year and sired two bulls that were Sire of the Year. The dam of this bull represents the best in domestic breeding in polled shorthorns. Here is a bull that is destined to leave a lot of good cattle. His get and service sell in the McGee offering.

One of the most talked about young bulls in the industry. Sired by the great Mandalong Super Flag X 3521872, THE AUSTRALIAN - ALL AMERICAN, who was a popular winner at the Toronto Royal and Canadian Western Agribition and grand champion at the National Western, Denver. He was the first bull bred and born in Australia to accomplish these honors. Triway Super Flag was bred by Dr. George W. Smith, D.V.M., Triway Farms, Greenville, South Carolina. The dam is a daughter of the great TPS Coronet Leader 21st, who has sired bulls that have been foremost in major shows and sales for the past six years. Namely, Kinnabar Leader 6th, Kinnabar Leader 9th "Big Gene", Weston Trademark "Fillet". The latter two were sires of the year and the 6th was second place sire of the year. Triway Super Flag has a Performance Record of: 204 day adjusted wt. 617 lbs., Grade 13, 140 day gain test 3.79 lbs., Grade 14, weight off test 1326 lbs. Weight at 365 days of age was 1066 pounds, weight per day of age 3.14 lbs. per day. Index 177.6. The ancestry of this young sire represents some of the very best the breed affords in Performance, both in the feed lot, the show ring and the breeding herd. His get and service sells.

STANDARD GUARANTEE

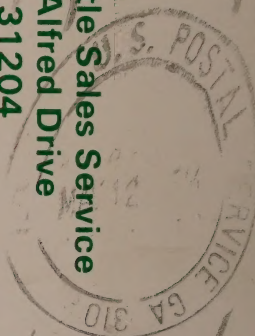

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers, sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial, for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
